Dear [Name],

I expect that your graduate education at the Whiting School of Engineering molded your character and enabled you to accomplish things you could not have imagined at a young age. I believe in that distinct possibility because it was my own experience.

As a small town boy, the thought of national and international leadership and recognition never entered my mind. It was not part of my universe. But my universe changed when I had the opportunity to pursue a doctorate at the Whiting School of Engineering. Looking back, I am more aware than ever how my graduate education was a powerful tool to expand my horizons and contributions.

It would have been impossible without graduate fellowships. Financial support helped pave the way to my Ph.D. in Mathematical Science and, ultimately, a career that far exceeded my boyhood dreams. Today, gifts from alumni like you and me help attract top graduate students and continue the long tradition of excellence at our alma mater.

Can I count on you to join with me and make a gift to our school? A gift of \$\_\_\_\_\_, \$\_\_\_\_\_, or \$\_\_\_\_\_ will help attract the brightest graduate students to the Whiting School and give them the same amazing educational opportunity we had.

Please take a moment right now to mail a check with the enclosed reply card, call 800-548-5422, or give online at <http://www.johnshopkins.edu/annualfund>.

Thank you for your gift. You can be certain that your timely financial support will have a life-changing impact on current and future graduate students and enhance their educational experience at the Whiting School.

Sincerely,

Hugh Bradley, Ph.D.  
Mathematical Science, 1963  
Whiting School of Engineering

P.S. Every gift makes a difference. Your gift, in any amount, will make a positive impact on the lives of current Whiting School graduate students . Please give today.
